Lab 3: Design a simple form that has dropdown, checkbox, radio button, and text field and text area.

Source Code
```html
<!DOCTYPE html>
<html>
<head>
    <title>Form</title>
    <style type="text/css">
        .container{
            margin-left: 380px;
            margin-top: 130px;
            margin-right: 380px;
            padding: 30px;
            border: 10px darkgray double;
            border-radius: 20px;
        }
        .heading{
            text-align: center;
            font-size: 30px;
            font-weight: 50px;
        }
        .button{
            text-align: center;
            background: antiquewhite;
            margin-top: 20px;
            padding: 10px 25px 7px 25px;
            border-radius: 20px;
        }
        .danger{
            font-size: 10px;
            text-align: center;
            color: #ff0000;
        }
        .form-input{
            width: 650px;
        }
    </style>
</head>
<body>
    <div class="container">
        <form class="form">
            <legend class="heading">Form</legend>
            <div>
                <label>Name</label>
                <div>
                    <input type="text"class="form-input" name="name" placeholder="Enter
Name">
                </div>
            </div>
            <div>
                <label>Email</label>
                <div>
                    <input type="email"class="form-input" name="email" placeholder="Enter
Email">
                </div>
            </div>
```

```html
            <div>
                <label>Bio</label>
                <div>
                    <textarea type="text"class="form-input" name="bio" placeholder="Enter
Bio">Enter Your Bio</textarea>

                </div>
            </div>
            <div>
                <label>Class</label>
                <div>
                    <select class="form-input" name="class">
                        <option selected disabled>Select A Class</option>
                        <option value="1">1</option>
                        <option value="2">2</option>
                        <option value="3">3</option>
                        <option value="4">4</option>
                        <option value="5">5</option>
                    </select>
                </div>
            </div>
            <div>
                <label>Subject</label>
